Balancing Sugar and Energy Production in Developing Countries: Sustainable Technologies and Marketing Strategies

Proceedings of the 4th IAPSIT International Sugar Conference
IS-2011

New Delhi, India
November 21-25, 2011

Editors
Yang-Rui Li
M.K. Srivastava, G.P. Rao, Priyanka Singh
S. Solomon

Sponsored by
GXAAS, Nanning, P.R. China
## CONTENTS

**SESSION I**

**SUGAR CROPS: AGRICULTURE & MECHANIZATION**

Integrated Effect of Bio-Methanated Distillery Effluent and Bio-Compost on Soil Properties, Juice

Quality and Yield of Sugarcane in Entisol ........................................................................................................... 307

C.K. Jha, M Alam, S.K. Sinha and Khushboo Verma

Effects of Vinasse and Press Mud Application on the Biological Properties of Soils and Productivity of

Sugarcane ................................................................................................................................................................. 312

Shang-Dong Yang, Jun-Xian Liu, Jun Wu, Hong-Wei Tan and Yang-Rui Li,

Effect of Trash Returning to the Soil on Microbial Communities and Physico-Chemical Properties of

Soils and Growth of Sugarcane Plants .................................................................................................................. 318

Qing Liao, Guang-Po Wei, Gui-Fen Chen, Bin Liu, Dong-Liang Huang and Yang-Rui Li

Effect of Alkali Soils on Yield, Quality and Physico-Chemical Properties of Soils in Sugarcane ................. 322

T. Usha Rani, K Prasada Rao and P. Shakespear

Twenty Years of Researches on Evaluating Drought Tolerance in Sugarcane: Morphological Perspectives ... 329

Hang Zhou, Manoj Kumar Srivastava and Yang-Rui Li
Foliar Application of Abscisic Acid Improves Drought Tolerance of Sugarcane Plant under Severe Water Stress ................................................................. 334
Chang-Ning Li, Manoj Kumar Srivastava, Li-Tao Yang and Yang-Rui Li

Effects of Ethephon on Key Enzymes of Sucrose Metabolism in Relation to Sucrose Accumulation in Sugarcane .................................................................................................................. 341
Ai-Qin Wang, Wen-Jing Huang, Jun-Qi Niu, Ming Liu, Li-Tao Yang, and Yang-Rui Li

Exogenous Glycine Betaine Improves Salt Tolerance in Sugar Beet ................................................................. 349
Gui Geng, Li-Hua Yu, Cui-Bing Zheng, Tie-Jun Wang, Fei Hui, Zhi Pi, Cun-Xue Peng and Yun Yang

Long Duration Cold Stress and Frost Induced Losses to Sugarcane Production in Guangxi (China) During 2010-11 and its Control Measures ............................................................................................................ 353
Yang-Rui Li, Feng-Xue Fang, Li-Tao Yang, Jian-Ming Wu, Xiang Li, Rong-Hua Zhang, Xi-Hui Liu, Hong He, Rong-Zhong Yang, Gan-Lin Chen, Shu-Quan Su, Jin-Lan Xie, Xiao-Yan Liu, Wei-Hua Huang, Wei-Xin Duan, Wei-Zhong He and Miao Wang

Sugarcane Yield and Quality Improvement by Large Scale Aircraft Spray of Drought Resistance Cane-Sucrose Promoter (DRCSP) .......................................................................................................................... 359
Li-Tao Yang, Bao-Qing Zhang, Qiu-Zhen Zhu, Zhi-Gang Li, Wei-Zan Wang, Wu-Jia Chen and Yang-Rui Li

Evaluation of Cold Tolerance in Sugarcane Under Dry Frost Conditions ................................................................. 366
Rong-Zhong Yang, Yang-Rui Li, Wei-Zan Wang, Qiu-Zhen Zhu, Hui Zhou, Shi-Yun Tang and Ya-Wei Luo

Comparison of Physiological and Biochemical Characteristics Related to Cold Resistance in Sugarcane Under Field Conditions ....................................................................................................................... 370
Bao-Qing Zhang, Li-Tao Yang, and Yang-Rui Li

Causes and Management of Field to Factory Sucrose Losses in Some African Sugar Industries ................................. 377
A.C. Wada; A.Gbabo; M.N. Ishaq; S.D. Joshua and M.N. Ukwungwu

Sodium Salt Alters Phosphorus Fractions of Sugarcane and Reduces Sucrose Contents ......................................................... 384

Sucrose, Dextran, Mannitol and Acid Invertase Levels in Harvested Stored Sugarcane Treated with Pine Oil and Electrolyzed Water .......................................................................................................................... 390

Sucrose Synthase Activity in Relation to Sucrose Accumulation in Sweet Sorghum ......................................................... 393
C.V. Ratnaavathi, V. V. Komala, S. Kalyana Chakravarthy, D. Gopala Krishna, U. Lavanya, C. Aruna, A.V. Umakanth and J.V. Patil

Relationship between Seven Biochemical Factors and Total Soluble Sugar Content in Sugarcane Stalk ............ 397
You-Qiang Pan, Kai-Chao Wu, Li-Ping Wei and Yang-Rui Li

A Comparative Juice Quality Analysis of Newly Introduced Sugarcane Varieties and There Maturity Based Processing for Crushing in Sugar Mills .................................................................................... 402
Wei-Zan Wang, Hong He, Qiu-Zhen Zhu, Jin-Lan Xie, Luo Ya-Wei, Tian Liang and Hai-Rong Huang

Factors Affecting Measurement of Reducing Sugars in Sugarcane Juice ................................................................. 406
Fang Tan, Rong-Zhong Yang, Song Li, Tao-Ju Lan, Feng-Liang Yu and Hong-Qin Tang

Correlation Between Dextran Content and Deterioration of Cane Quality ................................................................. 409
R. Muangmontri, P. Prammanee and U. Pliansinchai

Influence of Gibberellic Acid and Ethephon on Growth, Sucrose Metabolizing Enzymes and Sugars Contents of Sugarcane ....................................................................................................................... 413
Radha Jain, A.K. Shrivastava, S.Solomon and A. Chandra

Physiological Factors Associated with Ratoon Ability of Sugarcane under Tropical Condition ................................................. 419
R.Gomathi and P.N.Gururaja Rao

Assessment of Sequential Deterioration in Cane and Juice Quality in a Sugar mill Using MDH Method ............ 426
Priyanka Singh, S. Solomon, C.P. Prajapati, Jhanvi Singh and A. Sawanani

( vii )
Visacane, a Disease-Free Guarantee for Exchanging Sugarcane Varieties ................................................................. 428
Jean-Claude Girard and Isabelle Guinet-Brial

Investigations on the Major Fungal Diseases of Sugarcane in Guangxi, China ............................................................ 429
Jin-Ju Wei, Zhan-Yun Deng, Feng-Xue Fang, Huan-Zhong Song, Hong-Qin Tang, Wei-Hua Huang and Mei-Xin Yan

Sustainable Sugarcane Production in India vis-a-vis Impact of Sugarcane Diseases .................................................... 432
R. Viswanathan

"Sugarcane Doctor"- A Simple Computer Based Interactive Software for Identification and Management of Sugarcane Diseases ................................................................................................................... 439
Sangeetha Panicker

Effect of Press mud on the Control of Sugarcane Sett Rot Caused by Ceratocystis Paradoxa Moreau ..................... 443
T. Kalaimani, M. Babu, V. Paramasivam, A. D. Ashok, S. Jaya Prabhavathi and K. Sakthivel

Evaluation of Smut Resistance in Nineteen Local and Exotic New Sugarcane Varieties ........................................... 445
Zhong-Wen Wang, Long-Fei He, Ai-Qin Wang, Chao-Jun Chen and Li-Tao Yang

Management of Whip Smut of Sugarcane with Some Plant Extracts with Fungicidal Action ............................... 448
A.C. Wada and S. Dangana

Planting Setts Treatment with Botanicals, for Sugarcane Red Rot Disease Control in Nigeria ............................. 454
D.B. Olufolaji

Identification of Pathotypes of Red Rot Causing Fungus Colletotrichum falcatum Went. in Andhra Pradesh ................................................................. 459
N. Raja Kumar, K. Prasada Rao and R. Ankaiah

Identification of Suitable Disease Progress Models for Prediction of Red rot of Sugarcane Caused by Colletotrichum falcatum Went ................................................................. 462
Sangeetha Panicker and S. Nazeer Ahmad

Weeds as Potential Natural Reservoirs of Sugarcane Phytoplasmas in India ................................................................. 466
Smriti Mall, G.P. Rao and P.P. Upadhaya

Cultural and Morphological Variability among Isolates of Colletotrichum falcatum Went Infecting Cultivars of Sugarcane from Uttar Pradesh ................................................................. 469

Bio Intensive and Eco-Friendly Approach for the Management of Sugarcane Insect Pests ....................................... 477
A. Thirumurugan, T. Ragavan, R. S. Purushothaman and T. Jayaraj

Serious Occurrence of Sugarcane Borers in China: Causes and Control Measures .................................................... 482
Chu-Xiong Guan, Li-Jun Chen and Han-Liang Xu

Screening of Highly Virulent Metarhizium Strains to Control the Larvae of Dorysthenes Granulosus Thomson ................................................................. 486
Yong-Hao Yu, Xian-Ru Zeng, De-Wei Wei, Zhu-Yin Wang and Tao Zeng

Seasonal Incidence and Intensity of Shoot Borer Chilo infuscatusellus Snellen and its Effect on Yield and Quality of Late Planted Sugarcane Crop in North Eastern Region of Tamil Nadu ................................................................. 490
A. Thirumurugan, S. Sundraavandan, K. Sathiya, T. Ragavan and B. Rajendran

Role of Chemical and Biological Control Agents against Sugarcane Borers in Punjab, Pakistan ............................. 496
Muhammad Munir, Muhammad Afzal and Naeem Fiaz

Antixenosis Mechanism of Resistance to Early Shoot Borer, Chilo infuscatusellus Snellen in Sugarcane .......... 500
B Bhavani, K Dharma Reddy, N Venugopala Rao and M Bharatha Lakshmi
SESSION II
SUGAR CROPS: BREEDING AND BIOTECHNOLOGY

A Method for Constructing Core Crop Germplasm Collection Based on Qualitative Traits .............................................. 509
Hui Zhou, Shi-Yun Tang, Jing-Chao Lei, Wu Xian, Yi-Yun Gui, Rong-Zhong Yang and Yang-Rui Li

A Plant-Type Concept in Sugarcane for the Subtropics ........................................................................................................... 514
Raman Kapur, B.L. Srivastava, S.K. Duttamajumder, H.L. Madhok, Ram Hit and Ram Kumar

The Use of Erianthus fulvescens in Sugarcane Breeding Program, Advance I ................................................................. 517
Xian-Hong Wang, Fu-Sheng Li, Li-Lian He, Qing-Hui Yang and Shun-Chang He

Saccharum spontaneum as a Bridge Species for Introgression of Erianthus arundinaceus and E. bengalense Traits to Sugarcane ....................................................................................................................... 521
M. N. Premachandran, V. Raffee Viola, R. Lalitha, Maya Lakshm and A. K. Remadevi

Breeding Potential, Ratooning Traits and Drought Resistance of Innovative Yunrui Sugarcane Parents ......................... 527
Cai-Wen Wu, Pei-Fang Zhao, Jun Zhao, Hong-Ming Xia, Feng-Gang Zan, Jun-Yong Liu, Kun Yang, Li Yao and Wei Qin,

Genetic Variability and Repeatability for Some Agronomic and Technological Traits in Sugarcane Families at Early Selection Stages ..................................................................................................................... 533
M.I. Masri

Genetic Enhancement in Sugarcane - Potential of Interspecific Introgression Lines for Cane Yield, Quality and Red Rot Resistance .......................................................................................................................... 539
Surinder K. Sandhu, S. K. Uppal, Bipen Sharma and Jyoti Jain

Genetic Improvement of Sugarcane as An Energy Crop ........................................................................................................... 546
K.V. Sushir, R.S. Hapase and T.V. Sreenivasan

Nature of Gene Action for Cane Yield, Sugar Yield and Yield Components at Three Stages of Selection in Sugarcane (Saccharum officinarum L.) ................................................................................................................... 549
M. Charumathi, N.V. Naidu, K. Hariprasad Reddy, V. Raja Rajeswari and G.V. Nageswara Rao

Pollen Studies in Erianthus arundinaceus, Saccharum officinarum and Some Sugarcane Crosses ........................................... 553
S.S. Sattar, A. R. Singh, M. Krishnamurthi and J. S. Gawander

Breeding Sugarcane for Photo-Thermo Insensitivity ............................................................................................................... 556
Sanjay B. Patil, S.G. Guddadamath, P. Govindraj and K.S. Naik

Correlation Analysis of Fiber Content with Yield, Agronomic and Juice Quality Characteristics of Sugarcane ............................................................................................................................................. 561
Huan-Guang Li, Yu-Mo Tan, Fang Tan and Lun-Wang Wang

Genetic Identification and Heredity Analysis of the F1 Hybrid of E. arundinaceus (Retz.) Jesw. × S. spontaneum L. .......................................................................................................................................................... 564
Xu Hui Liu, Peng-Xue Fang, Yi-Jing Gao, Yang-Rui Li, Rong-Hua Zhang, Huan-Zhong Song, Rong-Zhong Yang, Wei-Kuan Fang, Wei-Xing Duan and Ge-Min Zhang

Storage of Sugarcane Pollens ......................................................................................................................................................... 570

Red Rot Resistance in Progenies of Some Crosses in Sugarcane ....................................................................................... 574
T. Kalaimani, M. Babu, V. Paramasivam, A. D. Ashok, S. Jaya Prabhavathi and K. Sakthivel

National Nursery of Sugarcane Germplasm Resources in China ......................................................................................... 577

Genotype-Environment Interaction and Stability Analysis for Cane Yield and Quality Characters in Sugarcane ....... 578
J. M. Repale, R. S. Hapase, M. W. Pawar and P. D. Chapde
The Establishment of Sugarcane Genetic Transformation System Mediated by Agrobacterium tumefaciens with Mannose as Screening Agent .................................................................................................. 674
Yuan-Wen Wei, Zhi-Nian Deng, Cui-Xian Qin, Hui-Qing Cao, Cheng-Mei Huang, You-Qiang Pan, Wei-Li Lu,
Hai-Bo He, Yuan-Yuan Guo, Hai-Bin Luo and Yang-Rui Li

Functional Analyses of Enzymes Effectors and Plant Growth Regulators on Sucrose Metabolizing
Enzymes and their Corresponding Genes in Sugarcane .......................................................................................... 680
Amaresh Chandra, Radha Jain and S. Solomon

Genetic Relationships among Parental Accessions in China Mainland Sugarcane Breeding Program as Revealed by Microsatellites Markers ................................................................. 685
Yong-Wen Qi, Yong-Bao Pan, Fang-Ye Lao, Chui-Ming Zhang, Li-Na Fan, Hui-Yi He, Rui Liu,
Qin-Nan Wang, Shao-Mou Liu, Fu-Ye Liu, Qi-Wei Li and Hai-Hua Deng

Molecular Evidence of Genetic Diversity of Sugarcane Bacilliform Virus Infecting Sugarcane Crops of India ........................................................................................................................................... 690
Deep Singh, G.P. Rao, Meenakshi Arya and V. K. Baranwal

Assessment of Genetic Diversity amongst Sugarcane Varieties from Different Regions using
ISSR Markers ...................................................................................................................................................... 695
Hai-Wang He, Chun-Yan Xu, Long-Fei He, Chuang-Zhen Li and Shan-Qing Wei

SRAP Polymorphism in Space-Flight Mutated Sugar beet SP3 Generation Breeding Material ........................... 701
Hui Zhang, Mao-Qian Wang, and Hua-Zhong Wang,

Genetic Diversity of Erianthus arundinaceus in China ................................................................. 707
Qing Cai, Xin-Long Liu, Xin Lu, Xiong-Mei Ying, Jun Mao, Li Ma and Yuan-Hong Fan

Close Related DNA Sequence to Bolting Gene “B” of Sugar Beet (Beta vulgaris L.) .................................. 711
M.I.Nasr, Hadia A. Heikal, M.A. Ghonema, A. El-Mezawy, O.M. Badawy and M.S. Saleh

A Method for High Throughput DNA Extraction from Different Crop Materials for SSR-PCR Amplification ................................................................................................................................. 717
Jun Liang, Zhong-Liang Chen, Kai-Chao Wu, Ye-Geng Fan, Manoj Kumar Srivastava and Yang-Rui Li

SSR Marker Based Genetic Diversity among Sugarcane Varieties (Lines) Developed in Guangxi, China ... 721
Zhi-Nian Deng, Yuan-Wen Wei, Zhong-Liang Chen, Cheng-Mei Huang, You-Qiang Pan, Wei-Li Lv, Cui-Xian Qin, Hai-Bo He, Yuan-Yuan Guo, Hai-Bin Luo and Yang-Rui Li

Evolution of Genetic Diversity in Sugarcane (Saccharum spp.) Germplasm Using Protein Profiling ............ 726

Identification of Red Rot Pathogen (Colletotrichum falcatum) of Sugarcane with the Help of Dot Blot Hybridization for Selecting Healthy Seed Material ............................................................. 732
Mohammad Israil Ansari, V. K. Madan and Ramji Lal

Estimates of Genetic Variability, Heritability and Genetic Advance in Sugarcane .............................................. 735
D.S. Pawar, R.S. Hapase and J.M.Repale

Studies on Genetic Diversity among Elite Clones in Sugarcane ....................................................................... 739
R. Latha, S. and Nazeer Ahamed

Ribosomal DNA Sequence Variability among Isolates of Sporisorium scitamineum Causing Smut of Sugarcane ............................................................................................................................................ 741
Sangeeta Srivastava, Prashant Shekhar Gupta and O.K. Sinha

The Function of Sugarcane Metabolites Produced in CO2-Rich Temporary Immersion Bioreactors (TIBs) ........ 745
Liu Yang, Yang-Rui Li, Li-Tao Yang, Feng-Xue Fang and Jian-Ming Wu

Effects of Angustmycin on Sugarcane Callus Induction ................................................................................... 752
Tao-Ju Lan, Song Li, Feng-Xue Fang, Hong-Yuan Xu, Hong-Jian Liu, Kun-Xing Yu, Li-Min Liu, Ming Dan,
Man-Man Lu, Fang Tan and You-Ming Dai
Effect of Exogenous Phytohormone on Ex-vitro Rooting of Micropropagated Sugarcane Shoots .............. 756
Miao Wang, Wei-Zhong He, Hong-Jian Liu, Feng-Xue Fang, Song Li, Meng- Lin Weng and Ming-Zhu Wei

Support Matrix Influences Morpho-Physiological Responses in Sugarcane Callus Development and Shoot Regeneration by Buffering Media pH and Nutrient Uptake ...................................................... 760
S.G. Dalvi, V.A. Kamat, G.B. Dixit, D. Theertha Prasad, P.N. Tawar and R.B. Deshmukh

Application of LFS in Rapid Propagation of Sugarcane Using Tissue Culture ........................................ 767
Song Li, Tao-Ju Lan, Hong-Yuan Xu, Kun-Xing Yu, Hong-Jian Liu, Li-Min Liu, Ming Dan, Man-Man Lu, Fang Tan and You-Ming Dui

A Clean Quality Sugarcane Seed Nursery Program with Meristem Culture and Chip Bud Seedling Technology ........................................................................................................................................................................... 771
M. Krishnan, A. Ieyabal and S. J. Lakshman

Studies on Ex-vitro Rooting in Sugarcane Micropropagated Shoots ............................................................... 776
Wei-Zhong He, Yin-Zhi Chen, Hong-Jian Liu, Song Li, Miao Wang, Meng-Ling Weng, Tian-Suan Wang and Shu-Quan Su

Improved Protocols for Embryogenic Callus Induction and Direct Regeneration of Sugarcane (Saccharum officinarum L.) Variety Co 86032 ........................................................................................................ 780

Response of Sugarcane to Callus Induction and Salt Stresses ......................................................................... 785
Hadia A. Heikal, M. A. Ghonema, O. M. Badawy and M. I. Nasr

Developmental and Hormonal Regulation for Organogenesis and Somatic Embryogenesis in Sugarcane and its Histological Characterization ...................................................................................... 794
V.P. Sobhakumari and R. Archana

Optimization of Hormonal Requirements for in vitro Micropropagation of Sugarcane ................................. 800
Akshi Agarwal, Pankaj Kumar, A.K. Tiwari, M. Lal and M.R.A. Jabri

SESSION III
SUGAR CROPS: PROCESSING AND VALUE ADDITION

Alcoholic Fermentation of Sugarcane Juice Using Three Different Kinds of Yeast ....................................... 805
Gan-Lin Chen, Feng-Jin Zheng, Bo Lin, Tian-Shun Wang and Yang-Rui Li,

Bio-Energy from Sweet Sorghum-Indian Perspective .................................................................................... 809

Alkaline Peroxide Pretreatment and Acid Saccharification for Enhanced Ethanol Production from Sweet Sorghum Bagasse ........................................................................................................................................ 813
S. K. Uppal, Yuwraj, Ramandeep Kaur, Poonam Sharma and K.S. Thind

Microbial Pretreatment of Sugarcane Trash for Improved Enzymatic Saccharification ................................ 818
Pushpa Singh, Archna Suman, Rama Kant Rai, AK Shrivastava, Priyanka Tiwari, Namita Arya, R Darash and SP Shukla

Simple Immobilization of Invertase in Dried Cells of Aspergillus niger Inv-1 ISRI by Cross Linking using Glutaraldehyde .................................................................................................................. 823
Triantarti, Setyo Adiningsih, Aris Toharisman, Agustin Krisna Wardani and Yahya Kurniawan

Sunil Singhal, Anupkesarwani, S.N. Saraswat and Semwal

Saccharification of Bagasse and Sawdust for the Production of Cellulosic Ethanol ...................................... 830
Satindar Kaur, Varun Aggarwal, R.S.S Kaler and Mandeep Singh
Yield, Juice Quality and Ethanol Production Potential of Some Promising Sugarcane Varieties .......................... 837
P. Rakkiyappan and K. Vasanthakumar

Modern Trends in Sugar Plant High Pressure Cogeneration ................................................................. 838
S. Balasubramanian, G.V. Raman and P.S. Sankaranarayanan

Biomass and Alternate Sugar Crops to Produce Liquid Bio-fuels .............................................................. 844
Gururaj Hunsigi, N.R. Yekelli and B.Y. Kongwad

Application of the Key Posts Project and Total Efficient Energy at Hector Molina Sugar Enterprise ............. 847
Raúl Carrillo Urrutia and Idalberto Parra Salazar

Sugar Quality Improvement in Indian Sugar Industry and Recommendations of ICUMSA ............................. 848
Rajesh Singh

Use of Stabilized Halogen Compound as Bactericide in Sugar Processing ................................................ 855
Rajeev Kumar Sharma, Chitra Yadav, Hemant Dubey and Jasvinder Singh

Sugar Muddy Juice Clarification and Dewatering Using Alfa Laval Decanters ............................................ 860
Amol Chinchankar

Improving Sugar in Bags by Controlling Biochemical Losses: Biodeg Enzymatic Chemical Combination
Mechanism ...................................................................................................................................................... 868
M. K. Srivastava

Sintered Alloy Power Carbide and Tungsten Carbide Materials for Shredder Hammer Tips ....................... 870
Joydeep Duttagupta

Enhanced Carbonation and Phosphatation Clarifier Performance for Improved Production
Efficiency and Product Quality in the Sugar Refinery ................................................................................ 871
James H. Bushong, Genaro Bernabe and Emmanuel M. Sarir

Sugar Clarification: A Step towards Green Technology ............................................................................... 874
Satindar Kaur, Mandeep Singh and Varun Aggarwal

Studies on the Quality of Mechanically Intensified Lime Milk and its Optimization for the
Clarification of Sugarcane Juice ..................................................................................................................... 880
Wei-Dong Sun, Wei Xie, Rong-Yan Zhu, Li Niu and Jun-Wei Li

The Maillard Reaction: Application to Sugar and Allied Industry ............................................................... 888
Satindar Kaur and Mandeep Singh

Investigations on the Variation of Thermo Sensitive Materials in the Evaporation Process ......................... 894
Hui-Xia Liu, Xiao-Ling Li, Guang-Chao Tian, Shao-Ji Zhao, Qing Li and Xian-Neng Li

Financial Feasibility Study of Brown Sugar Mini-Processing Firms in Nigeria ............................................. 898
J.W. Wayas; J.F. Alamu; A. Gbabo and A.C. Wada

Investigations on the Relationship between Colloidal Isoelectric Point and Alkalinity of
Sugarcane Juice .............................................................................................................................................. 906
Hui-Xia Liu, Xiao Liang, Shao-Ji Zhou, Qing Li, Xiao-Ling Li, and Guang-Chao Tian

Comparative Study of DC Drive and AC VFD for Mills .............................................................................. 909
U. A. Kulkarni and T. S. Ingle

Environmental Friendly Lubricants for Mill Brasses ................................................................................... 912
G. Perfetti and D. Alonso

Lubricating Grease Composition for Lubrication of Crushing Mill Journal Bearings .............................. 917
T. Singh

Welding Solutions for High Performance of Rolls ....................................................................................... 921
Toito Aurelio Francisco and Polidoro Andre Ricardo

A Success Story of Vertical Continuous Pan (SCPTM) for ‘A’ Massecuite Boiling ......................................... 924
C.G. PIMPALKAR
SESSION IV
SUGAR CROPS: MANAGEMENT, MARKETING AND SUSTAINABILITY ISSUES

Improving the Productivity and Competitiveness of Land Reform and Co-Operative Farming: Lessons Learned about Project Design from the SA Canegrowers’ Association Phakamisa Project .......... 967
K.M. Hurly and T.G.S. Sibiya

Managing Quality Improvement: the Strategic and Competitive Edge for Market Success ......................... 972
Indeep S. Bhatia

Emerging Technological Developments Suitable for Viable Cottage Sugar Production in Developing Countries ................................................................................................................................. 975
Agidi Gbabo, A.C. Wada, J.W. Wayas and M.A. Sadiq

Marketing and Export of Sugarcane Product (Jaggery) from Maharashtra .......................................................... 980
T. B. Deokate, B.K.Mali, A.V.Gavali and J.P.Yadav

Low Cane Productivity in India and South-East Asia: An Industry Dilemma ....................................................... 986
M. Krishnamurthi

Baseline Climatology of Four Sugar Mill Stations in Fiji and Current Climatic Trends ........................................... 989
Jai S Gawander, Murari Lal and Pedro Rounds

Sustaining Small-Scale Sugarcane Cooperatives in South Africa through Clustering, Collaboration, Goal Alignment and Record-Keeping .................................................................................. 1002
T.G. Sibiya and K.M. Hurly

Status and Sustainability of the Myanmar Sugar Industry ..................................................................................... 1007
Zaw Htun Myint, Yi Yi Mon and Sanda Kyaw Win

Recent Development in Sugarcane, Sugar Research and Sustainable Production for Energy Needs of Nigeria ............................................................................................................................................... 1014
M.N. Ukwungwu, A.C. Wada and A. Gabao

Sugarcane Marketing Strategies in India .................................................................................................................. 1023
Ram Murti Singh

The Factors Responsible for Professionalism in Management of Sugar Co-Operative Sector of South Gujarat ................................................................................................................................. 1028
R.M. Naik, H.V. Pandya and S.N. Saravatya

Input-Output Prices, their Parity and Income from Sugarcane in Maharashtra .......................................................... 1031
T. B. Deokate, D.B.Yadav, A.V.Gavali and P.N.Shendage

Success Story of Rajaram Bapu Patil SSK Ltd. in Maharashtra ............................................................................. 1037
P.R. Patil and S.D. Korade
