## CONTENTS

### SESSION I : SUGAR CROPS PRODUCTION TECHNOLOGIES

<table>
<thead>
<tr>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effect of Some Fertilization Treatments on Productivity and Quality of the Newly Released Sugar Cane Variety (Phil. 8013)</td>
</tr>
<tr>
<td>Integrated Technology to Improve Cane Production: Yield and Economic Return</td>
</tr>
<tr>
<td>Identification of Spectral Patterns of Soils Cultivated with Sugar Cane in the Cauca River Valley (Colombia)</td>
</tr>
<tr>
<td>Effect of Sowing and Harvesting Dates on Yield and Quality of Some Sugar Beet Varieties</td>
</tr>
<tr>
<td>Effect of Nutrient Management Through Organics vs Inorganics and Their Integration Effects on Yield and Quality of Sugarcane (Saccharum Spp.Hybrids)</td>
</tr>
<tr>
<td>Effect of Excessive Nitrogen Application on Yield and Quality of Three Sugarcane Varieties</td>
</tr>
<tr>
<td>Treatment of Drainage from Acidic Canelands Using a Constructed Wetland</td>
</tr>
<tr>
<td>Influence of Filtered Mud, Vinasse and Sugarcane Residues on Soil Microbe Population in Sugarcane Field</td>
</tr>
<tr>
<td>Effects of Direct Application of Vinasse on Sugarcane at Multiple Locations in China</td>
</tr>
<tr>
<td>Nitrogen Benefits of Legume Green Manuring in Sugarcane Farming Systems in Mauritius</td>
</tr>
<tr>
<td>Effects of Incubation of Sugarcane Sett with Nitrogen Fixers on Agronomic Traits</td>
</tr>
<tr>
<td>Response of Sugar Beet to Some Mechanical Management Practices, Irrigation and Plant Densities: Growth Parameters</td>
</tr>
<tr>
<td>Effects of Salt Stress on Growth, Na⁺, Cl⁻, Betaine and Proline Accumulation in Different Genotypes of Sugar Beet</td>
</tr>
<tr>
<td>Growth and Chemical Constituents of Sugar Beet as Affected by Nitrogen Sources and Rates and Boron Fertilizer</td>
</tr>
<tr>
<td>Response of Sugar Beet to Some Mechanical Management Practices, Irrigation and Plant Densities: Yield and Quality Parameters</td>
</tr>
<tr>
<td>Trench Planting - A New Approach for Water Management in Sugarcane</td>
</tr>
</tbody>
</table>
Development of Special Sugarcane Fertilizer for Guangxi and Verification for Its Effects ................................ 95
Yin-Zhi Chen, J Ian-Hua You, Bao-Ning Fan and Tao-Ju Lan

A Study of the Kaoje-Illo Forest Reserve in Kebbi State, Nigeria for Sugar Cane Production ......................... 99
A. C.Wada, S. Ethan, M. N. Ishaq, J.W. Wayagar and A. K Gana

Mechanization of Small Farms in Pakistan ................................................................................................................. 104
Muhammad Afzal, Arshad Ali Chattha, Muhammad Munir, Muhammad Umer Chattha and Muhammad Bilal Chattha

Some Factors Affecting Sugar Beet Productivity Under Newly Reclaimed Sandy Saline Soils ......................... 110
S.E. Seadh

Effect of Integrated Application of Organic and Inorganic Fertilizer on Yield, Juice Quality and Leaf Tissue Nutrient Content on Plant Crop and Its Residual Effects on Ratoon Crops of Sugarcane ...... 116
S. M. Bokhtiar, G. C. Paul, K. M. Alam and M. A. Mannan

Sugarcane Growth in Northeast Thailand as Influenced by Soil Properties and Nutrient Uptake Ability ................................ 122
J. Khodphuwiang, P. Chapanya, P. Prammanee and P. Weerathaworn

Effect of Different Types of Water-Holding Agent on Sugarcane Growth and Yields ........................................ 126
Shu-Ning Xu, Ding-Chan Nong, Jian-Hua You, Yin-Zhi Chen, Yi-Yun Gui and Gao-Ming Liang

Effect of Trash Incorporation Methods on Some Soil Fertility Indices in Ratoon Crops of Sugarcane .............. 129
Chao-Jun Chen, He Liang, Guo-Ying Lu, Ri-Yun Song, Xie Jin-Lan, You-Zong Huang and Li-Tao Yang

Productivity Enhancement and Resource Efficient Establishment Techniques of Sugarcane (Saccharum Sp. Hybrids) in Subtropical India ............................................................. 132
Kuldeep Singh, Dalip Singh, M. S. Gill, Avtar Singh and M.S. Bhullar

The Development of Retractable and Mobile Surface Drip Irrigation for Sugarcane in Thailand .................... 137
S. Saensupo, P. Prammanee and P. Weerathaworn

Bio-Farming of Sugarcane for Sustainable Sugar Production ................................................................................... 140
R.L. Yadav and K.P. Singh

Importance of Sulphur Nutrition and Its Application Effects on Sugarcane ......................................................... 144
Hong-Wei Tan, Liu-Qiang Zhou, Ru-Lin Xie and Mei-Fu Huang

Vertical Distribution of Soil Nutrients in Sugar Cane Growing Area in Changning, Yunnan, China ............. 147
Jiu-Wen Guo, Yue-Bin Zhang, Shao-Chun Liu and Pei-Fang Zhao

Acidic Buffering Ability and Its Regulation in Latosolic Red Soils of Sugarcane Fields ..................................... 150
Ze-Pu Jiang, Yang-Rui Li, Guang-Po Wei, Tian-Ming Su, Yan-Cheng Meng and Hong-Wei Tan

Effects of Long-Term Application of Chloride-Containing Fertilizers on Sugarcane ........................................... 154
Yu-Yi Huang, Ze-Pu Jiang, Bin Liu and Gui-Fen Chen

Integrated Use of Organic and Inorganic Manures on Sugarcane and Soil Properties ........................................ 158
R.B. Khandagave

Tropical Sugarbeet: A Viable Proposition Under Adverse Conditions in North India ...................................... 162
S.S.Grewal

Organic Sugarcane – Role of Soil Microflora .............................................................................................................. 163
Reeta Kumari, Rupam Kapoor and A. K. Bhatnagar

Yield and Quality of Sugar Beet as Affected by Intercropping with Faba Bean and N Fertilization ............... 164
S. A. S. Mehasen, A. S. El-Debaby, K. E. El-Habbak and Sanaa S. H. Saad

Vapi Technology for Sugarcane Production ................................................................................................................ 165
Channaraj Ars and Sanjay Tripathi
 SESSIO II: SUGAR CROPS IMPROVEMENT TECHNOLOGIES

Breeding Potential of ROC Varieties
Cai-Wen Wu, Pei-Fang Zhao, Jun Zhao, Jia-Yong Liu, Chao-Xiang Hou, Hong-Ming Xia and Xue-Kuan Chen

Breeding of New Sugarcane Variety Gt28 (Gt00-122)
Hong He, Hai-Bin Liu, Zhan-Yun Deng, Ge-Min Zhang, Wu Xian, Wei-Kuan Fang, Shao-Ling Bi and Feng-Yu Rong

Diversification of Breeding Program to Develop Multipurpose Sugarcane Cultivars
Manjunatha S. Rao and Pipat Weerathaworn

Regional Trials of Sugarcane Varieties in Guangxi Province
Hai-Bin Liu, Ge-Min Zhang, Wu Xian, Zhan-Yun Deng, Wei-Kuan Fang, Shao-Ling Bi, Feng-Yu Rong and Hong He

Genetic Improvement in Major Characters of Sugarcane Varieties in Guangxi
Jia-Yong Huang, Shu-Quan Su and Lun-Wang Wang

Genotype x Environment Interaction and Stability Analysis in Sugar Beet

M. I. Masri

Determination of Ploidy Levels in Sugar Beet Plants I. Methods of Chromosome Counting in Sugar Beet Plants
M. S. Saleh

Determination of Ploidy Levels in Sugar Beet Varieties II. Chromosome Number of Twenty Sugar Beet Varieties Based on Root Tips and Young Leaf Cells
M. S. Saleh, M. Z. Attalah and M.A. Ghonema

Rapid Propagation of Sugarcane Planting Materials by Using “Stratified Rayungan” Method
Eka Sugiyarta and Sri Winarsih

Evaluation of Promising Ms 95 Series Clones in Various Agro-Climatic Zones in Western Kenya
C. O. Olweny, J. E. Jamoza Onginjo and A. Nyangau

Genetic Enhancement of Sugarcane Productivity Under Moisture Stress Through Early Generation Selection
Sanjay B. Patil, B. M. Khadi, S. T. Kajjidoni and P. M. Salimath

Reduction in Intergeneration Time Interval in Selection of Sugarcane Varieties Through Population Testing
M. Krishnamurthi, K. Shannmuga Sundaram, S. Rajeswari and S.M. Rafi

Applying Similarity-Difference Analysis to Evaluate Sugarcane Varieties
Gai-Gang Yang, Cai-Wen Wu, Jia-Yong Liu, Jun Zhao and Pei-Fang Zhao

Application of Fuzzy Comprehensive Evaluation Technique in Evaluating the Introduced Elite Varieties for Haitang Sugar Company
Wei-Zhong He, Yin-Zhi Chen, Tao-Ju Lan, Zhong-He Ren, Rong-Zhong Yang, Yu-Mo Tan, Ming-Zhu Wei and Miao Wang

Varietal Response of Sugarbeet to North Indian Growing Conditions
Raman Kapur, A.D. Pathak, S.N. Srivastava and Amit Yadav

Cluster Analysis and Sampling Methods for Core Collection Establishing in Saccharum Hybrids
Hui Zhou, Shi-Yun Tang and Rong-Zhong Yang

Comprehensive Evaluation of Overseas Sugarcane Clones
Jun Zhao, Jia-Yong Liu, Gai-Gang Yang, Pei-Fang Zhao, Chao-Xiang Hou and Cai-Wen Wu

Chlorophyll Contents and Morphological Characteristics of Space-Flight Breeding Lines in Sugar Beet
Hua-Zhong Wang, Ze-Dong Wu, Ying Han, Nai-Xin Liu and Cong-Ling Wang
Smut Disease-Resistance Breeding in Yunnan ................................................................. 253
Hong-Ming Xia, Pei-Fang Zhao, Ying-Kun Huang, Zhi-Ming Lou, Jie Cui and Cai-Wen Wu

Use of Simple Sequence Repeats for Authentication of Sugarcane Hybrids Generated from
Yunnan Erianthus Rockii ....................................................................................................... 257
Yan-Fen Jing, Lian-An Tao, Xin-Long Liu, Ru-Dong An and Xue-Kuan Chen

Genetic Profile of Three Promising Egyptian Sugar Beet Genotypes ............................ 260
M. S. Saleh, El-Manhaly M. A. Nabawya S. A. Ghura and M. A. Ghonema

High Throughput Genotyping of Sugarcane Clones with Microsatellite (SSR) DNA Markers .................................................. 266
Y.-B. Pan, B. E. Scheffler and E. P. Richard, Jr.

Identification of Genetically Diverse Saccharum spontaneum Genotypes from India Using
Ssr-Sscp and Rapd Markers ............................................................................................... 273

The Assessment of Genetic Relationship Amongst Sugarcane Cultivars Using SSR Markers .......................... 278
Jun Liang, Jian-Hua You, Kai-Chao Wu, Feng-Xue Fang, Jiang-Xiong Liao, Lei-Xing Mo, Manoj Kumar
Srivastava and Yang-Rui Li

Isolation and Characterization of a Gene Encoding the D1-Pyrroline-5- Carboxylate Synthetase
in Saccharum officinarum L. ................................................................................................. 283
Cheng-Mei Huang, Li-Tao Yang and Yang-Rui Li,

Induction of Mutations by Somaclonal Variation Compared with γ-Irradiation in Sugarcane .................................................. 287
F.M. Abd El-Tawab, A.I. Alam, A. Abo Domaa, M. Abd El Gawad, Reham I. Abd El-Hamid and M.I.Nasr

Micropropagation of Stevia rebaudiana in vitro ................................................................. 293

Regeneration of Sugarcane Plantlets Through Callus Culture ....................................... 299
Ghulam Sughra Mangrio, Muhammad Shaban Kalivar and Zafarullah Brohi

Transformation of Sugarcane with ACC Oxidase Antisense Gene................................ 302
Ai-Qin Wang, Wei-Qing Dong, Yuan-Wen Wei, Cheng-Mei Huang, Long-Fei He, Li-Tao Yang and
Yang-Rui Li,

Somaclonal Variation in Sugarcane Through Tissue Culture and Subsequent Screening for
Molecular Polymorphisms ................................................................................................. 307
Dalia I. H. El-Geddaey, Clara R. Azzam and S. M. Khalil

Changes of Microtubule Cytoskeleton in the Stem Tip Cells of Sugarcane During Mitosis .................................................. 321
Su-Li Li, Zhi-Gang Li, Hong-Bo Zhao, Li-Tao Yang and Yang-Rui Li,

Analysis of the Genetic Diversity in Saccharum spontaneum L. from Guangxi with RAPD-PCR .................................................. 325
Ge-Min Zhang, Jiang-Xiong Liao, Zhi-Ken Wu, Hong He, Hai-Bin Liu, Ru-Cai Zhu, Zhao-Xu Liang,
Rong-Zhong Yang, Gan-Lin Chen, Wei-Zhaong He and Miaow Wang

High Quality Genomic Dna Impurities-Free from Sugar Crops and Other Plant Tissue .................................................. 330
K. A. Khaled and A. M. H. Esh

Effect of Different 2, 4-D Levels on the Morphogenesis and Growth of Sugarcane Callus .................................................. 333
R.S. Sengar and Shalini Gupta

SESSION III : SUGAR CROPS PROTECTION TECHNOLOGIES

Effect of Silicon Application on the Management of Spittle Bug (Mahanarva fimbriolata Stål)
on the Productivity of Sugarcane ..................................................................................... 337
D. R. B. Wangen, G. H. Korndorfer and M. V. Sampaio

Sugarcane Smut in Queensland: Spore Trap and Epidemiology Outcomes .................................................. 341
R.C. Magarey, B.J. Croft and K.S. Braithwaite
Effect of Whip Smut (*Ustilago scitaminea* Syd.) on Some Yield Components of Sugar Cane in Nigeria .......... 345

A. C. Wada and A. B. Anaso

Quick Detection of *Leifsonia xyli* subsp. *xyli* by PCR and Nucleotide Sequence Analysis of PCR Amplicons from Chinese *Leifsonia xyli* Subsp. *xyli* Isolates ........................................................................................................... 348

Genetic Biomarkers and Resistance to Sugarcane Mosaic Virus ................................................................. 355

S. El-Seehy, O. M. Badawy, S. Attallah and R. Yaseen

Genetic Diversity of Sugarcane Yellow Leaf Virus Isolates Affecting Sugarcane Crops of India .......... 362

Association of Rust Severity with Nutritional Status in Susceptible Sugarcane Varieties ............................................. 369

R. A. Sopena, A. Rago, A. Felipe, S. P. Pérez Gómez and J. A. Mariotti

Biological and Ecological Characteristics of Introduced Cuban Fly (*Lixophaga diatraean*) in

Guangxi, China ........................................................................................................................................................ 372

Zhan-Yun Deng, Wei-Zhong He, Yu-Mo Tan, Yin-Zhi Chen, Zhao-Xu Liang, Bo-Hui Wang, Dong-Fa Huang,

Song Li, Cheng-Hua Huang, Xue-Hong Pan and Mei-Xin Yan

Development of Transgenic Sugarcane Plants Resistant to Stem Borers Employing

Agrobacterium-Mediated Transformation ........................................................................................................... 376

M. M. Saadalla, A. M. El-Seehy, O. M. Badawy, M. S. Badran and E. S. Salem

Ssr Based Genetic Diversity in Sugarcane Genotypes Differing in Response to Red Rot Resistance .......... 381

R. K. Singh, D. K. Pandey, Rajesh Singh, Sunita Lal, M. S. Khan, H. L. Madhok and

M. Swapna

Influence of Vesicular Arbuscular Mycorrhiza and *Trichoderma virdi* as Deterrents Against

Soil-Borne Root Rot Disease in Relation to Yield and Quality of Sugar Beet ................................................................. 385

Aly, M. H. and Manal, Y. Hussein

Eco-Friendly Approaches for the Management of Sugarcane Woolly Aphid, *Ceratovacuna lanigera* (Zehntner) .................................................................................................................................................. 389

P. S. Tippannavar, Sanjay B. Patil, C. P. Mallapur and K. P. Gundannavar

Elimination of Sugarcane Mosaic Virus and Sugarcane Streak Mosaic Virus by Tissue Culture .......... 394

Effect of Cane Stem Damage by Borer During Elongation Stage on Juice Quality in Sugarcane .......... 399

Huan-Guang Li, Yu-Mo Tan, Feng Tan and Rong-Zhong Yang

Effects of Five Pesticides in Controlling Sugarcane Borer (*Chilo irfuscattellus*) ........................................... 403

Zhong-Wen Wang, Yong-Mei Liao, Xing Xu and Li-Tao Yang

Role of Calcium Levels in Sugar Beet Resistance to Root-Rot Disease ................................................................. 405

M. M. A. El-Kholi, A. Z. Aly and A. M. H. Esh

Factors Responsible for Secondary Spread of Sugarcane Grassy Shoot Phytoplasma in Eastern Uttar

Pradesh, India ............................................................................................................................................................ 411

Priyanka Chand, Yamini Chaturvedi, Sunita Mall, Deepmala Singh,

P. P. Upadhya and G. P. Rao

Development of Molecular Markers Associated with Smut Resistance in Sugarcane .............................................. 415

Shoaib

Status of Ratoon Stunting Disease (RSD) in the South-East Vietnam ...................................................................... 423

Ha Dinh Tuan, Nguyen Duc Quang, Bui Cach Tuyen and Le Dinh Don

Combination of Plant Extracts of *Chromolaena odorata* and *Ocimum gratissimum* in the

Control of Pine-Apple Disease of Sugarcane in Nigeria ........................................................................................ 426

D. B. Olufolaji
Evaluation of the Impact of *Diatraea* Spp on Production and Quality of Sugarcane .......................... 429
Jesús E. Larrahondo, Luis A. Gómez, James A. Jurado and Viviana Obando

Diseases Hampering Commercial Production of Sugarcane in India: Present Scenario and Future Prospects ......................................................... 431
H. B. Singh

Investigations on Damages by Main Insect Pests of Sugarcane in Tuolu Sugarcane Planting Areas of Chongzuo, Guangxi, China ....................................................... 434
Song Li, Fang Tan, Bo-Hui Huang, Qu-Zhen Zhu, Jian-Hua You, Rong-Zhong Yang, Cheng-Hua Huang, Kun-Xing Yu, You-Ming Dai, Tao-Ju Lan, Quan Yao, Qu- Qiong Huang, Zhun-Jian Ning, Chun-Yi Luo, Miao - Zhu Fang and Jiang-Hua Zhang

Effect of Mosaic Disease on Different Yield Parameters of Some Newly Released Varieties of Sugarcane in Bangladesh ................................................................. 437
Md. Ibrahim Talukder, Farhana Begum, Md. Shamsur Rahman and M. Iqbal

Modern Tools for Safe Detection of Diseases in Sugarcane Quarantine .................................................. 439
J.C. Girard, E. Fernandez, M. Royer and P. Rott

SESSION IV : SUGAR CROPS PHYSIOLOGY, QUALITY AND AND MANAGEMENT OF ABIOTIC STRESS

Sugarcane Phytoliths: Encapsulation and Sequestration of A Long-Lived Carbon Fraction .................. 443
Jeff Parr, Leigh Sullivan and Robert Quirk

Soluble Acid Invertase and Sucrose Phosphate Synthase: Key Enzymes in Regulating Sucrose Accumulation in Sugarcane Stalk ..................................................... 447
You-Qiang Pan, Hai-Ling Luo and Yang-Rui Li,

Effect of Ethephon on Carbon and Nitrogen Nutrition at Tillering Stage of Sugarcane ...................... 453
Kai-Chao Wu, , Yan-Ping Ye, Yang-Rui Li and Li-Tao Yang

Effect of Ethephon on the Activities of H^+^-ATPase and Bound- ATPase at Tillering Stage of Sugarcane ....... 457
Kai-Chao Wu, , Yan-Ping Ye, Yang-Rui Li and Li-Tao Yang

Effects of Ethephon on Tillering, Gas Exchange and Cane Yield of Sugarcane Under Drought Condition ..... 462
Yan-Ping Ye, Yang-Rui Li and Li-Tao Yang

Advancement of Start of Harvest: Impacts and Corrective Measures .................................................... 467
S. Koonjah, A.R. Nayamuth and M. Mangar

SDS-Page Protein Profile of Sugarcane Plantlets Under Drought Stress Conditions .......................... 472
Gui Zhou, Li-Tao Yang and Yang-Rui Li

Effects of Seed Soaking in Ethephon Solution on Polyamine Content in Sugarcane Roots .................. 476
Wei-Hao Wang, Yong-Ming Luo, Yan-Ping Ye and Yang-Rui Li

Effects of Molybdenum on Nitrogenase Activity of Nitrogen-Fixing Bacteria in Sugarcane ................. 480
Li-Ping Wei, Yang-Rui Li, Li-Tao Yang and Yi-Yun Gui

Effect of Vinasse on Photosynthesis, Nitrogen Metabolism and Yield of Sugarcane ........................... 484
Yun-Chuan Mo, Yan-Ping Ye, Jie Gui, Yang-Rui Li and Li-Tao Yang

Effect of Different Sources and Rates of Nitrogen Fertilizers Under Foliar Sparying of Boron on Sugar Beet Yield and Its Quality ......................................................... 489
M. S. El-Keredy, A. M. Omar, I. H. El-Gedawy and Amira, E. El-Sherif

Isoperoxidase Activity and Growth Ratio in the Developmental Stages of Sugar Beet Plants .................. 495
M. S. Saleh and M.A. Ghonemah

Psbm 901: A Leaf Scorch Resistant Clone Adaptable for Ultisol in Indonesia ....................................... 501
P.D.N. Mirzawan, H.Budhisantosa and E. Sugiyarta
Relative Contribution of Tonnage and Quality Components Towards Sugar Yield in Identified Clones Under Moisture Stress Environment ................................................................. 504
S.T. Kajjidoni, Sanjay B. Patil and N.G. Hanamaratti

Dates as Source of Sugar and Sugar Integrated Industries ................................................................. 508
M. I. Nasr, H. A. Ibrahim and A. E. Hegazy

Effect of Potassium, Zinc and Ethrel on the Low Temperature Induced Biochemical Changes in Bud and Root Band Zone (RBZ) of Sugarcane Setts ........................................ 514

Sucrose Loss and Change in the Activities of Invertase and Dextranucrase in Harvested Cane During Late-Crushing Season .............................................................................................. 519

An Elite Sugarcane Genotype Colk 94184 Tolerates Chromium Toxicity at Sprouting .................. 523
Manoj K. Srivastava, R. K. Rai, A. K. Khare and Yang-Rui Li

Effects of Spraying Microelement Fertilizer on Ratoon Crop of Sugarcane Affected by Chlorosis .................. 529
Shi-Yun Tang, Yu-Mo Tan, Rong-Zhong Yang and Hai-Bin Liu

The Influence of Time and Temperature in Polarimetric Assay Using Hydrochloric Acid on Sugarcane Quality Indexes ......................................................................................... 533
Fang Tan, Huan-Guang Li, Xiang Li, Li-Min Liu, Feng-Yu Rong, Song Li and Rong-Zhong Yang

Effect of Ratooning on Flowering of Some Sugar Cane Varieties at Alexandria, Egypt .................. 536
O. M. Badawy, M. I. Nasr and M. F Abou El-Fatth

Changes in the Sprouting Pattern and Biochemical Parameters of Sugarcane Bud Chip Seed-Stock Treated with Ethephon .......................................................................................... 540
Radha Jain, S. Solomon, A. K. Srivastava and P. Lal

Quality Deterioration of Two Promising Sugarcane Clones During Storage After Harvest ............ 546
Jia-Yong Liu, Cai-Wen Wu, Xue-Kuan Chen, Jun Zhao, Pei-Fang Zhao and Hong-Chang Yang

Effect of Planting Dates on Flowering in Some Sugar Cane Varieties at Alexandria, Egypt ............ 548
O. M. Badawy, M. I. Nasr and M. F Abou El-Fatth

Effects of Phosphorus Stress on Photosynthetic Properties of Different Sugarbeet Genotypes ........ 552
Jian-Chao Zhou, Jing Fan, Xiao-Chun Wang, Yan Wang, Xiao-Kun Lin, Hong-Guang Xi and Li-Hua Yu

Changes of Microtubule Cytoskeleton in the Stem Tip Cells of Sugarcane During Mitosis ............... 555
Su-Li Li, Zhi-Gang Li, Hong-Bo Zhao, Li-Tao Yang and Yang-Rui Li

Cryosectioning Method for the Observation of Microtubule Cytoskeleton in Plant Cells .................. 559
Xin-Cheng Zhang, Zhi-Gang Li, Su-Li Li, Li-Tao Yang and Yang-Rui Li

Effects of Cytokinins on Tissue Culture of Sweetening Plant, Siraitia grosvenorii Swingle C. Jeffrey .... 562
Tao-Ju Lan, Hong-Yuan Xu, Bing He, Feng-Jue Zhou and Nai-Ming Yu

Post Harvest Losses of Sucrose in Sugarcane: Effect of Anti-Bacterial Compounds ....................... 566
Manjusha Verma, S. Solomon and A. K. Srivastava

Artificial vs. Natural Sweeteners: A Clinical Perspective ................................................................. 567
Sanjay Kumar Solanki, Manjusha Verma and Lalit Arya

SESSION V: SUGAR PROCESSING TECHNOLOGIES, BIOFUELS, DIVERSIFICATION AND VALUE ADDITIONS

Appropriate and Eco-Friendly Sugar Processing, Technologies for Developing Countries ................. 571
J J Bhagat
A Feasibility Study on Bio-Ethanol Productivity of Sweet Sorghum (Sorghum bicolor (L.) Moench) ..... 577
San Thein, Nyo Nyo Aung and Sein Thuang Oo

Sugarcane Revolutionizing the Transport Sector in Brazil: A Trendsetter for Developing Countries ..... 583
T.S.G. Lee and L.L. Lee

Research and Development Strategies to Bioethanol Production in Colombia ........................................ 586
Jesús E. Larrahondo

Clarification Behavior with Cationic Bagasse Cellulose Complex on Sugar Juice .................................... 592
Wei-Dong Sun and Li-Na Zhao

Impact of Sweet Sorghum Syrup on the Nutritive Value and Quality of Some Baked Products ..................... 597
Hanaa M. Hemeda, Hoda S. Ibrahim, Abdel Aziz M. Nadir and Amr A. Rezq

Evaluation of Biocides for Mill Sanitation : The Complete Saga .............................................................. 606
V.M. Kulkarni

Enzymatic Saccharification of Acid Pretreated Sugarcane Trash: Investigations on Cellulose Digestibility and Monomeric Sugar Yields ................................................................. 612
Pushpa Singh, Priyanka Tiwari, Namita Arya, Archana Suman and A.K. Shrivastava

Improvement in Extraction of Higher Aliphatic Alcohol from Sugarcane Wax ........................................ 617
Gan-Lin Chen, Feng-Jin Zheng, Hai-Rong Guo, Xiao-Fei Wang and Zhi-Chun Li

Biological Evaluation of Sugarcane Bagasse and Filtermud ................................................................. 622
Nefesa H. El Banna, Hanaa M. Hemeda, Yosria A. Mohamed, Mohamed Y. Mohamed and Mohammed K. Habib

Food Application and Fortification with Selected Sugarcane By-Products ................................................ 627
Hanaa M. Hemeda, Nefesa H. El Banna, Yosria A. Mohamed, Mohamed Y. Mohamed and Mohammed K. Habib.

Bio-Recycling of Distillery Effluent to Improve Sugarcane Productivity .................................................. 636
T.S.G. Lee and L.L. Lee

Characteristics of Multipurpose Sugarcane Variety B9 ........................................................................... 640
Lun-Wang Wang, Rong-Zhong Yang, Jin-Yi Wei, Miao Wang, Wei-Zhong He and Xiang Li

Potential Ability of Some Sweet Sorghum (Sorghum bicolor L. Moench) Varieties in Syrup and Ethanol Production Under Two Sowing Dates ......................................................... 645
Abd El-Razek, A.M. and S.Y. Besheit

Influences of Ultrasound on Calcium Carbonate Precipitation .................................................................. 653
Hai-Qin Lu, Cai-Feng Xie, Xin-Quan Liang, Kai Li and Hong Li

A Simplified Method for Testing Direct Pol of Cane Juice in Sugarcane .................................................. 657
Feng-Yu Rong, Ge-Min Zhang, Shao-Ling Bi, Hai-Bin Liu, Gan-Lin Chen and Zhao-Xu Liang

Optimization of Fructo-Oligosaccharides Production from Plantation White Sugar ................................ 660
Aris Toharisman, Hendro Santoso and Triantarti

Determination of Flavonoids in Sugarcane Through High-Performance Liquid Chromatography (HPLC) and Spectrophotometry Methods ............................................................... 663
Jesús E. Larrahondo, Sonia P. Ordóñez and Alonso Jaramillo

Optimization of β-1, 3-Glucan Extraction Conditions with Response Surface Analysis ......................... 665
Tao Wei, Hui-Xia Liu, Wen-Hong Zhou and Shao-Jun Cao

Decolorization of Cane Syrup Using Weak Anionic Resin Compared to Strong Anionic Resin Regenerated Using Disodium Hidrogen Phosphate ........................................................... 670
Triantarti and Aris Toharisman

Study on Recovery of Yeast Product from Mature Fermented Molasses Mash ....................................... 673
Tao Wei, Hui-Xia Liu, Wen-Hong Zhou and Jing Fan

A Pilot Experiment on Cyclone-Flow Flocculation in the Clarification of Cane Sugar Sulphitation Process ..... 676
Xiao-Mai Yao, Hui-Xia Liu, Shao-Jun Cao, Zhi-Wei Zhang, Shao-Ji Zhou and Shi-Jun Mo

( x )
Influences of Ultrasound on Calcium Carbonate Precipitation ......................................................... 679
Haiqin Lu, Caifeng Xie, Xinquan Liang, Kai Li and Hong Li

Development and Testing of Sugarcane Cutter and Juice Expeller for Cottage Level Sugar Factories in Nigeria ................................................................. 683
Gbabo Agidi A.C. Wada and A.A. Ochigbo

SESSION VI : SUGAR CROPS MARKETING, MANAGEMENT INFORMATION SYSTEM AND HUMAN & ECONOMIC RESOURCE MANAGEMENT

Sugar Sector in Egypt .................................................................................................................................................. 691
M.I. Nasr, A.I. Alam and I.H. El-Geddawy

Industry and Multi – Annual Indicative Programmes to Buffer the Declining European Union Prices on Small Island States Like Fiji ......................................................... 697
Jai S. Gawander

Identifying the Key Components to a Successful First Year of Implementation of a Road Transport Management System for the South African Sugar Industry ........................................................................... 704
K.M. Hurly and R. Giles

Reducing Fertilization Cost for Sugarcane in Guangxi, China .............................................................................. 708
Xian Liang, Tao Lin, Bin Mo, Ke-You Wei, Li-Ping Wei and Ze-Lin Qin

Introduction and Delivery of High-Yielding Package Technology of Sugarcane Production in Myanmar ...... 711
Ye Htut, San Thein and Yi Yi Mon

Improved Earnings for Sugarcane Farmer: An Intercrop Alternative ....................................................................... 719
G S C Rao and S C Reddy

The Role of the Mentorship Programme in Capacitating Black Emerging Farmers Within the Sugar Industry ......................................................................................................................... 723
N. Xaba and K.M. Hurly

Sugarcane and Sugar Industry in Southwest China: The Research and Developments ............................................ 727
Yue-Bin Zhang and Pei-Fang Zhao

Essentials for Improving Sugar Cane Productivity in Egypt with Special Reference to Qena Governorate ................................................................................................. 730
Bahgat M. Abdel-Maksoud

Rebuilding Indonesia’s Sugar Industry ..................................................................................................................... 736
Agus Pakpahan

Management of Research for Cane and Sugar in Asia Pacific ................................................................................... 737
M. Krishnamurthi

Integrated Practices for An Improved Sustainable, Sub-Tropical Sugarcane Industry: A Case Study ......................................................... 740
Robert G. Quirk and Timothy G. Zwemer

Studies on Sustainability of Sugar Industry in Bangladesh .................................................................................. 744
G.M. Monirul Alam, M.A. Samad Miah and M. Mahmudul Alam

Global Sugar Price Distortion and Its Impact on Bangladesh Sugar Industry .............................................................. 748
M. Mahmudul Alam, G.M. Monirul Alam and M.A. Samad Miah

Economic Analysis of Cane Production Efficiency in North-East of Thailand ......................................................... 755
A. Kannula, V. Chinnarong, M. Srichan, C. Prasantee, T. Klomsa-At, P. Prammanee and P. Weerathavorn

Status of the Sugar Industry Development in China ........................................................................................... 759
Yang-Rui L and Li-Tao Yang

Future Research Priorities of Chinese Sugar Industry ............................................................................................... 764
Li-Tao Yang and Yang-Rui Li

( xi )
Study on Sustainable Development of Sugar Industry in Guangxi, China ............................................................ 771
Ze-Lin Qin, Chang-Lian Wei, Zhi-Yang Wei and Bao-Ning Fan

Sugarcane Research and Development Network in Bangladesh ............................................................................ 774
S M Bokhtiar and M A Mannan

Sugarcane vs Competitive Crops in Thailand ............................................................................................................. 777
Rochana Tangkoontoribun
